28th June 2018

Dear Sir/Madam,

Greetings!

Sub: Request to attend or nominate two faculty members for Advanced Training and Workshop on “**Patent Search (Basic & Advanced Level)**” at Visakhapatnam on 5th & 6th July, 2018

We are pleased to invite you to a Advanced Training and Workshop on “**Patent Search (Basic & Advanced Level)**” to be held on 5th & 6th July, 2018 at APIS, Sunrise Incubation Hub, Hill-3, Madhurwada, Visakhapatnam. This Training and Workshop is organized jointly with the World Intellectual Property Organization (WIPO) and the Cell for IPR Promotions & Management (CIPAM) under the Department of Industrial Policy and Promotion (DIPP), Govt. of India in collaboration with National Research Development Corporation (NRDC)-TISC and Andhra Pradesh Innovation Society (APIS), Govt. of A.P.

This Training and Workshop is aimed at presenting the in-depth knowledge on various IP Search national and international databases and enable navigation steps of searching for patent and non-patent literature for finding out whether inventions/patents propose to file are qualified for filing patent or not. Knowing the state of the art/searching tools and hands on experience shall increase chance of developing an issuable patent and saves from costly patent litigations and unnecessary infringement. IP Information has considered as one of the key factors in measuring innovations credibility of universities / academia under NIRF framework by NAAC, UGC Govt. of India.

Various MSMEs, Industries, Universities and Academia, are invited for the event. Please find enclosed tentative agenda of the event for your kind information. There is no registration fee for participation.

Your benign presence on this occasion was highly anticipated. We would appreciate if you could confirm your participation by 30th June 2018, by email to my colleague Mr. B. K. Sahu, at bksahu@nrdc.in, Mobile: +91 9810104163.

National Seminar

on

“Patent Search (Basic & Advanced Level)”

**5 & 6th July, 2018, Conference Room,
APIS, Sunrise Incubation Hub, Hill-3, Madhurwada,
Visakhapatnam, Andhra Pradesh, INDIA**

Introduction

In the changing paradigm of innovation, creation, protection and management of intellectual property (IP) is playing key role in successful technology management. The Government of India's Make in India and Start-up India, National IPR Policy and programme respectively have given more emphasized on IP, innovations and technological competitiveness. Management of Intellectual Property Rights (IPRs) and its strategies would determine positions of organizations and their chronological and innovation dynamic. Its role in global equilibrium emanating from changing technologies need to be understood by scientists, engineers, technologists, researchers, academics, industries, and governments. The growth of any knowledge based industries is driven by the creativity and knowledge of their human resource. The effective IP management provides an incentive for an innovation and creates a structure for sharing the results. Hence, IP information and management is a key to unlock the human potential towards the innovation/invention and to sustain in an IP ecosystem. To leverage the IP culture one need to understand and analyze to draw insightful results which are available already in the existed art through patent search. With this objective, WIPO, DIPP-CIPAM, in collaboration with NRDC and APIS organizing two days training programme on above issues for various stakeholders the country.

Objectives:

The seminar will provide an in-depth knowledge on various IP search databases and enable navigation steps of searching for patent literature for finding out the state of the art of technologies. The potential technological breakthrough inventions always have the scope of transferring and commercializing for the societal benefit. The new invention/ knowledge are increasingly becoming a key strategic resource for economic development. The program will skill set of how to search, retrieve and analyze the relevant patents and non patent literature to support for research and innovation. It will also enable to take away the best practices on IP information skill set and technological innovation analysis. It will support in due diligence to attain the novelty, non-obviousness and industrial applicability of the inventions /idea /project.
